COUNTY FATHERS HOLD REGULAR SESSION

The board of supervisors met in regular session Monday, April 10th, at 10 a. m., there being present Jos. M. Francis, presiding, Jas. T. Casey, Wm. H. Brown, John MacBain and C.V. Thompson.

The report of the superintendent of the County Farm and Hospital, J. R. Eubanks, showing the number of persons to receive aid from the Indigent fund, was received and ordered filed.

The auditor's statement showing the aggregate amount of allowance that can be made against the several funds of the county for the month of April, was read and ordered filed.

An application for a first class liquor license was received from M. B. Wiggins of Halfmoon Bay, and was given its first reading.

On motion of MacBain, seconded by Casey, the supervisor from the Third district was granted permission to oil the La Honda road from the lower end of his district below La Honda to the top of the summit, the expenses of said oiling to be taken out of the Third Road Fund.

Supervisor Thompson addressed the board and asked that Contractor Lou G. Hare, who has the contract for constructing the Pescadero-Santa Cruz road as far as the Gazos creek, be instructed to continue the road from the latter point to the Santa Cruz county line, as provided for in the contract. The total cost of extending the road, according to Engineer J. V. Neuman, would be $17,000.

While the other members of the board realized the necessity of the construction of the road, they were opposed to ordering the work done until they could see their way clear to raise the necessary amount of money. At the suggestion of Supervisor MacBain, action in the matter was deferred until the next meeting of the board, April 17th, at which time Engineer Neuman will have an estimate from the auditor of the amount of money it will be necessary to raise for all purposes the coming year.

On motion of Brown, seconded by Casey, the contract of Edward M. Chadbourne for the oiling of the county road from Beresford to Redwood City was accepted as completed.

Attorney Gilbert D. Farrell appeared before the board in the matter of the right of way for the State highway over the Mary G. Brittan and the N. J. Brittan property near San Carlos. Mr. Farrell explained that the owners and heirs to the above property were ready to grant a right-of-way for the highway, providing another right of way granted the county for a county road some years ago and now made unnecessary on account of the construction of highway, be abandoned. A resolution ordering the abandoning of the said right of way was adopted, on motion of MacBain, seconded by Brown.

After allowing claims, the board adjourned to Monday, April 17, at 10 a. m.

FORMER COUNTY TREASURER DIES FROM AUTO INJURIES

Dr. Wilbur J. Wilcox, treasurer of San Mateo county, died last Saturday morning in Oakland from injuries received when he was run down by his own machine, which started while he was cranking it.

Dr. Wilcox came to this county in 1872 and for a number of years conducted the Pioneer Store on Main street, as a partner of P. P. Chamberlain, the present owner. He was elected treasurer of San Mateo county in 1877 and served five years, being succeeded by P. P. Chamberlain, the present incumbent, in 1882.

Dr. Wilcox was born in Flint, Michigan, in 1850. He came to this city in 1867 and graduated from the University of California. He is survived by a widow, Mrs. Jennie D. Wilcox, and a daughter, Elizabeth, who lives at the family home in Oakland. The funeral was held Monday afternoon.

REDWOOD STARTS ITS CLEAN-UP WEEK

Clean-up week in this city was started yesterday and will continue until Saturday. The work is in charge of Superintendent of Streets Dickey and Fire Chief M. E. Ryan, assisted by an able corps of assistants.

Yesterday was devoted to the cleaning-up of back yards. This will be the program also for today. Tomorrow the front yards will be cleaned up and on Saturday the weeks will be cut.

The instructions to the people are to put all their refuse and debris in the street in front of their premises to be gathered up by garbage wagons supplied free of charge by the city.

The following organizations are cooperating to make the clean-up campaign this year a success: Board of Town Trustees, Fire Department, Chamber of Commerce, Redwood City Woman's Club, Redwood Highlands and Wellesley Park Improvement Club, San Mateo County Center, Park Commission and Clean-up Committee.

AIRSHIP FLIGHT TO BE BIG FEATURE MAY 4TH

Committees Are Hard at Work Preparing Program—Many Novel Features Are Promised.

On Floral Festival Day, May 4th, an airship flight will be one of the features of the splendid program arranged by the Floral Festival committee. Aviator Purcell has been engaged. Those who have seen the young man fly declare that he is a skilled air man.

The flight is scheduled to take place immediately after the program at the ball grounds, the aviator having selected Chestnut street as the point from which he will start and Redwood Highlands to land in. According to William Kohler, who will have charge of the aviation feature of the Floral Day program, Purcell will remain in the air half an hour, flying over all sections of the city.

The Druids, Eagles, Native Sons, Odd Fellows and Foresters have already notified Chairman McGettigan of the Floral Festival committee that they will enter floats. Official notice from half a dozen other lodges which have expressed a willingness to participate in the parade, is expected before the end of the week. The committee is anxious to receive these official notices so as to enable Chairman P. A. Ryan of the parade committee to arrange his line of march.

The program committee is hard at work drilling the different schools for the exercises at the ball park. The committee promises many novel features.

George Peterson, Cyrus Young and Rod Hydenfeldt have declared their intentions of entering decorated automobiles in the parade. Others who intend to do so are requested to notify the Floral Festival committee.

DREDGING OF REDWOOD HARBOR HAS STARTED

The dredging of Redwood harbor was started yesterday by the San Francisco Bridge Company, who has the contract to lift half a million cubic yards of mud from the bottom of the bay and spread it over 120 acres of land owned by the harbor company and within the area surrounded by the spur trackage that has been built by the harbor company.

The completion of the dredging operations will give a low water depth of 18 feet of harbor and will throw open one of the finest industrial sections on the entire San Francisco bay. A. W. Pioda, engineer of the harbor company, will have charge of the work.

HAS VOTED AT EVERY CITY ELECTION SINCE 1856

An interesting figure at the last Monday's election in this city was Thomas G. Durham, the well-known pioneer. Mr. Durham has not missed an election in Redwood City since 1856, when he voted for John Fremont for president. He is one of the three remaining members of the society of San Mateo County Pioneers, the other two being William Lasswell and Charles Jacobus. Mr. Durham has reached his eigthy-fourth year, but is as hale and hearty as a man of fifty, having never had a real sick day in his life.

Stanley Doyle of San Francisco visited his mother here last Friday.

MR. AND MRS. JAMES EVA GIVE DINNER PARTY TO FRIENDS

Mr. and Mrs. James Eva entertained a number of friends at a dinner party Sunday. Their guests included Mr. and Mrs. Marshall Harris, Mr. and Mrs. J. E. Gilson, and Mr. A. Hughes of San Francisco, Mr. and Mrs. Walter K. Fletcher and Chase. Littlejohn of this city. Mr. and Mrs. Harris and Mr. and Mrs. Gilson spent the weekend at the Eva home.

THE HANDBALL QUESTION

It has been plainly shown several times in recent years that Sequoia needs a handball court and last week it was again demonstrated when several boys were threatened with suspension for playing in the basement and against the school building. Can they be justifiably blamed? Some will say, "Why of course, the school building is not a handball court and was never intended to be used as such and the boys should be restricted from playing the game against the building or in the basement." But it is safe to say that the students have an altogether different view of this matter.

Is there any good reason why this school should not have a handball court? We have plenty of room for a backstop and the ground is such as to need little attention. It can be put up by the manual training department as was done in the case of the tennis court and stable.—B. H. Lalande.

Under a new arrangement of the debating territory, Sequoia has been set apart to debate against San Mateo, Palo Alto, Mountain View and Halfmoon Bay. Sequoia has done little or no debating with San Mateo and Halfmoon Bay, and welcomes them to the lists.

"Lost—This or That" How often do we see on the front board a "Lost" announcement, either a pen, a book, or something else. Are books really lost? Is it not a careless habit of putting the book where it should be? Books are left at any place the owner happens to be, and then when the same books are not in the desk; behold, the sign on the board. Let everybody take care of his books, and not the books of his neighbor. There is nothing in school life, to warrant or justify the indiscriminate use of books not one's own personal property If you wish to use a book, ask permission to do so.

Some time ago, the Boosters Club started to decorate the Assembly Hall with flowers and they were very welcome. But why has the idea been allowed to die? Keep it up, it is good work. And don't allow the flowers to wilt but pick off the dead leaves and see that there is water. A little attention in this direction will greatly help.

More interest is being shown in tennis this year than ever was shown at Sequoia. Since Wednesday has been reserved for girls alone, they too, are taking more than usual interest in this sport—much to their own good. Twenty-three boys have registered to play in the singles tournament which begins today. Match-drawings were made last week—and this tournament, which will decide the singles championship of the school, promises to be very interesting. It presumably will extend over a period of from three to four weeks. Last week a tournament with the Grammar School was begun, but on account of lack of time, due to remarking the court and preparing for our own series, it could not be finished. The Grammar School boys were allowed a handicap of 15 every game, with the following results to date:

A. Torres, R. C. G. S., won from Gordon Seely, Sequoia, 6-1, 4-6, 6-4.

H. Mitchell, R. C. G. S., won from Pitcher, Sequoia, 6-0, 6-3.

Paul Stevens, Sequoia, won from B. Cronk, R. C. G. S., 6-2, 6-1.

Two more singles matches are yet to be played, as well as one double match.

On the whole, John McKee, our tennis manager, promises us a very interesting tennis season. From what we have already seen, he is not far from being right, for many new people have been on our court. It is true the court is far from being what it should be, but not withstanding, we are thankful for what we have.

The date for league tennis has been set for May 6, 1916, to be played in Berkeley if courts are available.

COULDN'T FOOL HIM

Coming fresh from the country a youth had just procured a position in a city grocery. As he had been warned that city folks would josh him because he was from the country he was very cautious. One afternoon a girl entered the store and said:

"I should like to get some birdseed, please."

Confident that he had detected a josher the youth answered with a smile:

"No, you can't josh me. Birds grow from eggs, not seeds."

The regular meeting of the Redwood City Woman's Club will be held Thursday afternoon, April 20, at the club house. The members will receive the report of the delegates to the district convention, along with the regular business. A Shakespearian program will be given and a large attendance is urged.

(My commission expires Mar. 10, 1917)

Mrs. Abbie E. Krebs, one of the candidates for delegates, will cooperate with the league in organizing the women voters of the state. The Regular Republican ticket is most acceptable to the women because the convention of the Regular Republicans adopted strong resolutions approving the Mondell-Sutherland bill in favor of national sucerage for women while the Johnson-Earl United Republicans refused to take any action on such resolutions, or even adopt a platform.

Attorney General Webb in his efforts to keep in standing with boss Hiram Johnson is trying to undo the plan of Secretary of State Jordan to simplify voting at the Presidential Primary election. Jordan seeks to have a blank space after the names of the twenty-six United Republican candidates and preceeding the Regular Republican candidates. The Fresno Republican and several other newspapers that generally accept the guidance of the state administration are sharply criticizing the Johnston-Earl hydro-electric organization for interfering. They are fair minded enough to believe that every reasonable allowance should be made so that the voter might express his will at the polls without fear of esror.

The California Woman's Regular Republican League has just been organized in San Francisco to enlist the support of every woman voter in Northern and Central California in behalf of the Regular Republican candidates for delegates to the National Convention. Headquarters have been opened in the Crocker National Bank Building. The officers are Mrs. Florence Richmond, President; Mrs. Ella M. Sexton, Mrs. G. D. Shadbourne, Jr., and Miss Virginia Verr Deal, Vice-Presidents; Helen K. Williams, Secretary; and Mrs. Kate M. Flynn, district organizer.

$8,000 SUBSCRIBED FOR CHURCH

A very interesting meeting of the members of the Congregational church was held last Wednesday evening. Preceding the gathering a dinner was served at 6:30 o'clock in the church parlors. After which an address was made by Rev. H. H. Wykoff, president of the Congregational Church Building Society of the state. Short talks were made by a number of the members. Subscriptions were called for and in a brief period the neat sum of $8,000 was pledged. Rev. Wykoff explained that if the remaining $12,000 were raised the building society would supply the other $5,000. The proposed new building will cost about $25,000. The members of the church are quite sanguine that the amount will be forthcoming in a short time and that work of preparing plans will be soon under way.

FIREMEN VERSUS FIREMEN

Age and experience versus youth and ambition will be the program Sunday morning, April 30 at 10 o'clock The place will be the ball grounds and the admission will be free. Company 4 of the Redwood City Fire Department composed of the youngest men in the department, aspire to excel all the other companies in everything from fighting fires to playing ball. To realize these ambitions they have decided to make their start by playing a ball game and have picked Company 1, the oldest company the department boasts of, to be the stepping stone in reaching their goal. James Hedge will be the umpire and on his decisions will largely depend which company will pay for the trophy, a dinner.

SEQUOIA STUDENTS TO GIVE DADDY LONG LEGS

The night of April 28, the members of The Folly Club and The Triangle Club will present a series of plays.

The Folly Club will give a students' dramatization of Daddy Long Legs in which about a dozen girls will take part, some of them assuming boys' roles.

The boys of The Triangle Club will present at least three one-act plays and they are strong ones too. There will be fun, lots of it, and a few dramatic situations. This is an attempt on the part of these students to give a show that the public might attend without charging fifty cents. Twenty-five cents will be the admission, only enough to cover expenses of hall, printing, etc. As many are expected it will be necessary to reserve seats.

TO THE VOTERS OF REDWOOD

I take this means of expressing my thanks to the citizens and voters of Redwood City for the support and kind consideration given me on election day.

I will take my office with the full determination to do my duty, that the citizens of this city will never regret electing me to the honorable office of City Clerk. I remain,

Respectfully,

FATHER RAISES SON TO MASTER MASON

Thos. Hydenfeldt Confers Third Degree on Roderick Hydenfeldt

Last Friday evening will be one long remembered by Redwood City Lodge 168, F. and A. M., for on that evening, for the first time in the 52 years of the lodge, a son was raised to the degree of Master Mason by his father, and on that occasion Past Master Thomas O. Heydenfeldt conferred the third degree upon his son, Roderick Heydenfeldt. Past Master Heydenfeldt occupied the Master's position, and assisting him were Past Masters F. F. Towne as senior warden, Roy W. Cloud as junior warden, and C. G. Landscheit as senior deacon. Among other past masters who assisted in the impressive ceremonies were P. P. Chamberlain, John W. Poole, E. H. Weider, R. F. Chilcott and E. H. V. Hoenck. An interesting feature of the affair was the fact that the candidate was on that day celebrating his 23d birthday. After conferring of the degree, violin solos were rendered by A. H. Fenster, of Fidelity Lodge of San Francisco, an uncle of the candidate. A pleasing vocal duet was contributed by Messrs. Carrington and Landscheit. The event par excellence of the evening, however, was the presentation to Past Master Heydenfeldt of a handsome electric stand lamp, by the members of the classes of 1905 and 1906, raised by him when master during those years. The presentation was made by Past Master Roy W. Cloud, who eloquently reviewed the history of the members of the classes. After the lodge was closed all adjourned to the banquet room, where a bountiful repast was served and much oratory appropriate to the occasion indulged in. Just before the gathering adjourned Mr. Heydenfeldt presented his son Roderick with a Masonic pin which had been given to him the night he was made a master Mason, twenty years before. There were eighty members in attendance, all of whom enjoyed themselves thoroughly.

A NEW POSTOFFICE BUILDING FOR PALO ALTO

Senator Phelan on Wednesday introduced a bill in Congress which provides for a $50,000 postoffice building at Palo Alto. It will be some time before the appropriation will be made for the new federal building. It is understood the Senator has in mind the introduction of another bill which will provide a similar sum for a new federal postoffice building at Redwood City.

MIGUEL VS. MULLEN AGAIN IN JUDGE SEELY'S COURT

Mullen Returns the Compliment by Having Miguel Arrested

The Miguel-Mullen feud had another inning in Judge Seely's court on Thursday when J. S. Miguel was brought over from Miramar on a warrant sworn to by William G. Mullen. The complaint alleged that Miguel threatened Mullen and used vile language in his presence. Ross and Ross represented Miguel and at the request of the attorneys the case went over until next Wednesday at 10 o'clock when the differences of the two families will be aired. Two weeks ago, Miguel had Mullen arrested for shooting a horse belonging to the former and Mullen was fined $50 and paid it. Both factions have adjoining lands and quarrels appear to be a pastime with them. The feud had its inception in a school election three years ago when William Mullen defeated Miguel for the position of trustee.

Young Espinoza, who is 20 years old and who at the time was earning $75 a month, was thrown to the ground with great force and had his left leg fractured. McNULTY, MABIE AND MERRILL ELECTED

W. A. Price Makes Phenomenal Run for Office of Town Clerk

The election last Monday occasioned some surprises. The defeat of Joseph Hahir for reelection was not looked for. The guns of the opposition were trained upon him and he went down to defeat after serving as trustee for four years. The other big surprises was the phenominal run made by George W. McNulty, the popular clerk for the Tacoma Mill Company. He headed the list of candidates for trustee receiving 716 votes out of 1185, the vote cast. This large vote attests the popularity of the young counciman. Next came Carl Mabie who received 611 votes. Mr. Mabie is a new man in politics, this being his first advent into the political arena. The big support he received also speaks volumes for his popularity. George A. Merrill was third in the race and was reelected by a vote of 553. Hahir secured 446 votes. McNulty, Mabie and Merril will be members of the new board. Then came F. Baird with 316 votes, D. E. Graham with 325 votes, Geo. A. Kreiss with 295 and Harry Lewis with 245.

The run made by W. A. Price for town clerk was quite unexpected and was really one of the real surprises of the election. He defeated Carl Plump the incumbent by 127 votes and Thomas Curran by 142. Mr. Curran put up a splendid battle considering that this was his first entrance to politics. Mr. Price's big vote shows his popularity in Redwood City.

That much interest was centered in the election was demonstrated by the large vote that was brought out, over 92 per cent of the registered vote was cast. There were no particular issues at stake but the voter evidently wanted to make a change in the present administration.

The new board will be ushered into office next Monday evening. In as much as H. C. Tuchsen has been in the minority of the present board it is not beyond the relm of possibility that he will be made the new mayor. Rumor has it that some changes will be made in the appointed offices of the city government. Just what changes will be made cannot be learned at this time but it is hinted that some officials are slated to go. Just whose head will fall into the basket is not known. Already there is about a half dozen applicants for each municipal office.

His father, Daniel Ryan, was at one time constable of the third township. Young Ryan served in the United State army and saw service on the frontier. He was a deputy constable at Menlo Park some years ago and during the course of his duty shot a bad character named Smith and came very nearly killing him. CHRISTIAN SCIENCE LECTURE WELL ATTENDED

More than two hundred people took advantage of the rare treat offered last Thursday evening at the Woman's Club House to attend a most instructive lecture on Christian Science given under the auspices of the local Christian Science Society. The speaker was Mr. Clarence W. Chadwick, C. S. B., of Omaha, Neb., member of the Board of Lectureship of the Mother Church, the First Chuch of Christ Scientist in Boston, Mass., and he held his audience in rapt attention for the hour and a quarter which he spoke. A synopsis of the lecture follows:

In the evolution of human thinking it is becoming more and more evident that we live in a thought world. Whatever confronts us must be of mental procurement else there could be no mental or conscious recognition of it. We see thoughts because we think them. Without thought there would be nothing to think or to talk about. Everything cognizable to the senses is a manifestation of thought.

It was in the year 1866 that Mrs. Eddy made the all-important discovery that "all causation was Mind, and every effect a mental phenomenon" (Retrospection and Introspection," p. 24).

By Mind she means not the carnal or mortal mind which is "enmity against God," but one infinite supreme governing intelligence of the universe, eternal and unchangeable.

Jesus was a man of ideas. He was the perfect example of the thinking man. It has well been said that "ideas are the great warriors of the world." All the good and great things in human history have been achieved through the leadership of some grand idea. The primary mission of Christian Science is to acquaint humanity with God through the medium of right ideas.

Mrs. Eddy as the Discoverer and Founder of Christian Science fought the good fight and bravely won her laurels. Her works which have followed her have proved her one of the greatest and yet most humble of religious Leaders and Teachers.

Thousands of witnesses in all parts of the world will testify under oath that Christian Science has healed them of so-called incurable diseases. The evidence is overwhelming that Chrisian healing is today an established fact in the world.

BRIGHT, WHITE LIGHT DEPENDS

On the Quality and Voltage of the Lamps Used.

If lamps are used which are marked for a voltage higher than the standard current supplied, then they will burn dim, only two-thirds of the proper light being given if the marked voltage is ten per cent above standard.

If lamps are used which are marked for a voltage lower than the standard they will burn out faster than they should.

The standard voltage rating for lamps for use on lines of the Pacific Ges and Electric Company in this district is 115 VOLTS.

Expensive automatic regulators are maintained by the company which operate every second of the day and night in order to maintain uniform voltage on the lines.

Unless the lamps used the of the proper voltage the benefits of this costly work are largely lost to the consumers of **"Pacific Service."**

Be sure when you buy lamps to look at the small paper label and see that it reads 115 VOLTS (sometimes abbreviated to 115V).

Make the Best Remedy at Home—128 Teaspoonsful for 50 cents.

If everything was sold in as liberal and fair a manner as the below named druggists are selling Schiffmann's New Concentrated Expectorant, absolutely no cause for complaint or dissatisfaction could possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe Cough, Croup or any Bronchial Affection, and we will return your money, just the same as we do with Schiffmann's famous Asthmador, if it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonsful, because

GENERAL NEWS EVENTS

Stranded in a storm off the Lema Islands, twenty miles south of Hongkong, the Japanese steamship Chiyo Maru, whose 229 passengers, mostly Americans, were rescued by a British warship, as previously reported, now is believed to have been abandoned by her crew.

President Wilson plans to occupy "Shadow Lawn," the summer home in New Jersey offered him by people of the State, as soon as Congress adjourns, and in case Congress is in session during the summer probably will spend week-ends there before adjournment. President and Mrs. Wilson are on a cruise down Chesapeake Bay.

The Illinois district of the United Mine Workers of America has lifted the ban on members of the organization belonging to the National Guard, according to information given out at Peoria. Officials stated that the cause for lifting this ban was because of the possibility of the United States needing additional men in the organization of the Army.

River traffic between Canton, China, and inland ports is gradually falling off in volume owing to the unsettled conditions in many of the districts. Business in the old city virtually has been suspended and the people continue in a state of excitement. Shop doors are being kept half open and in readiness to close at a moment's notice. It is understood the rebels refuse to make peace until Yuan Shi Kai resigns from the Presidency.

A new significance was given the proposed transatlantic flight of Rodman Wanamaker's new super-America in aviation circles. It is the current belief that if this latest and greatest monster of the air can prove the feasibility of aerial transportation between the two hemispheres, the Philadelphia magnate will push the project through to a commercial enterprise which will end in a line of winged liners carrying passengers and light cargoes to Europe in record time.

Charles M. Schwab, the chairman of the board of directors of the Bethlehem Steel Company, financier and multi-millionaire steel master, has purchased the Baltimore Sheet and Tin Plate Company, the $3,000,000 enterprise recently promoted by J. E. Aldred. In less than a year the Schwab interests have become the owners of the Detrick & Harvey machine plant, the Maryland Steel Company and the $3,000,000 Aldred concern. At Sparrow's Point from $15,000,000 to $20,000,000 will be spent in improvements.

Gagadig Gigadab.

There was a quaint old man in Manchester, England, who for many years went by the unique name of Gagadig Gigadab. His original name was John Smith, and for many years he brooded over the possibilities of mistaken identity involved in it. The name figured frequently in criminal records, and he became abnormally apprehensive lest he might be confused with some of the bad John Smiths. At last what he feared so much actually happened. One morning the papers reported the arrest of an accountant in a bank for embezzlement, and through some blunder of the reporter the identity of the embezzler was confused with the subject of this article, who was also a bank accountant. Then and there he determined to assume a name like unto no other ever borne by mortal man. And in Gagadig Gigadab most people will agree that he succeeded in so doing.

Excitement.

People who easily get excited don't usually live nearly so long as people who keep calm. Excitement, in fact, wastes the vitality and affects one's health to a very great extent. This is true, too, of all who seek excitement, whether physical or mental. Excitement makes the pulse beat above the ordinary rate, and one's reserve of energy is used up so much the quicker. Occasional excitement, however, is very good for one's health, especially where the pulse is slow, but the natural condition of the body should be one of calmness and regularity.

Modern Efficiency.

"I don't see how Adele could possibly stop to get married. She has such a passion for traveling."

"But she did it to save time."

"How's that?"

"She married a shipping clerk and now he packs all her trunks for her."—Judge.

He Wasn't Acrobatic.

Miss Prue Dent—Papa says you are improvident and that he will never consent to my marrying a man unable to make both ends meet. Orrville Harduppe—Well, I'm afraid I shall never be able to do so. I'm no contortionist. Good evening.

Touch That Failed.

Mrs. Winks—It was a touching story that that poor man told you, wasn't it? Mr. Winks—Well, he thought it would enable him to touch me for $10, but it didn't.—Somerville Journal.

Those Husbands!

He—Where does your wife carry her street car fare? His Neighbor—In the other woman's purse. Honest, though, you'd think she wanted to pay it.—Judge.

It is sad to love and be unloved, but sadder still to be unable to love.—Maeterlinck.

Life's Dream.

Life is but a light dream, which soon vanishes. To live is to suffer. The sincere man struggles incessantly to gain the victory over himself.—Napoleon.

New Acquaintances.

If a man does not make new acquaintances as he advances through life he will soon find himself left alone. A man should keep his friendship in constant repair.—Johnson.

HIGH SCHOOL NOTES

During the last part of March, the Junior Class lost one of the best students. Grace Carleton of Menlo Park was so severely troubled with her eyesight that she was forced to leave school indefinitely, and is confined to her home under the care of two eye specialists. Her condition is very delicate and much anxiety is being felt by her many friends at Sequoia. Grace was a popular girl at school and her loss even tho it may be temporary, is keenly felt by all.

Helen Clothier who was struck by an automobile in March is rapidly regaining her strength. Altho her condition was very serious at first, her constitution made it possible for her to pull thru an accident that otherwise might have proven fatal. Helen is a Sophomore here, and is one of the liveliest girls at Sequoia.

Leonard Dalve is suffering from blood poisoning in his left hand. It is hoped that he will be favored by a rapid recovery.

Miss Mardele Robinson, a graduate of 1910, who is now principal of the grammar school in Richmond, has shown her loyalty to Sequoia by subscribing for The Booster.

Richard Derby, '15, was honored at Stanford by being given one of the leading roles in the Junior Opera, "In Dutch" presented March 30th. Derby was also listed for the hammer throw in the track meet last Saturday.

Not long ago at the celebration of Stanford Founders' Day, President Benjamin Ide Wheeler of the University of California struck a key-note which should resound in the halls of all our high schools as well as of our colleges. He said that the underlying purpose of our universities was to "Help find the way," meaning that the real purpose of such an institution should not be to cram her students full of Greek, Sciences and Literature, but to teach them to know man, to handle men and men's motives even better than they can handle the pen, or the delicate parts of intricate mechanisms.

Surely President Wheeler knows whereof he speaks, and his message should be taken to ourselves and applied when needed. We are altogether too prone to believe that life consists first of learning a trade or profession, then working it for all it is worth in a mercenary world. But is this life? Were we put onto this planet to spend our entire life in toil and worry over things that pertain only to ourselves and our personal fortunes, whether pecuniary or otherwise? No, we were created to live. To serve our Maker before ourselves or anyone else, and then to spend our lives for the good of mankind. By this is not meant that you make a martyr of yourself, neither suffer personally at the expense of others, but that you should not try to obtain a higher education simply because by so doing you will be better able to accumulate worldly wealth, or attain some position of high power, but because by gaining that higher education you can come to know man and life and therefore be able to live for the sake of spreading that happiness and contentment which can only be discovered after we know how to live our lives properly. Before leaving Sequoia High School, let us learn what is meant by "life," then let us spend the rest of our time learning to live, and living. —Ed.

The Sequoya staff has decided that April 11, shall be "Camera Day." The idea is this: each person, who has a camera, is asked to bring it and take pictures. Then these pictures are to be submitted to the staff, the best ones to be selected for cuts in The Sequoya.

Friday afternoon, the Sophomore Domestic Science Class debated whether home-made bread is better than bakers' bread. Mr. McCrea, as judge, gave the decision to the affirmative represented by Lydia Cook, Eleanor Read, Lila Genochio, and Jennie Thompson. The negative was upheld by Elizabeth Pennington, Adyline Weeden, Angelina Faso and Helen Corwin.
